QuickBuild RF, a partnership between Amphenol RF and Amphenol Custom Cable, offers customers the ability to design custom RF cable assemblies that meet the specifications of any design. With the largest portfolio of precision RF connectors and cable options at your disposal, the easy-to-use cable assembly configurator allows you to select the interconnects, cable and various additional options including sleeving and clocking. All assemblies are manufactured, individually tested and shipped quickly with no minimum order quantity.

Build your cable assembly now at **QuickBuildRF.com** or
call **1-800-446-2232** to get started today

► DESIGN

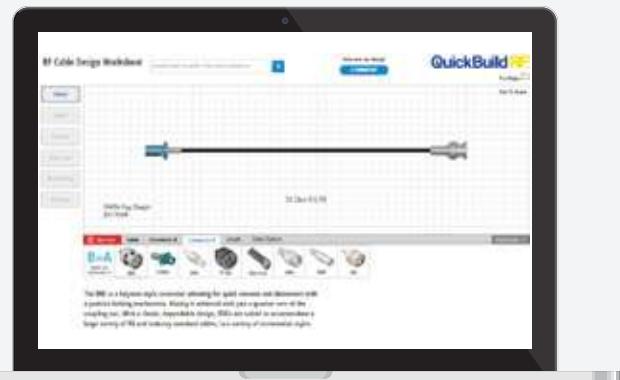

STEP 1 CABLE TYPE

Select from an extensive list of industry standard 50 and 75 ohm coaxial cables.

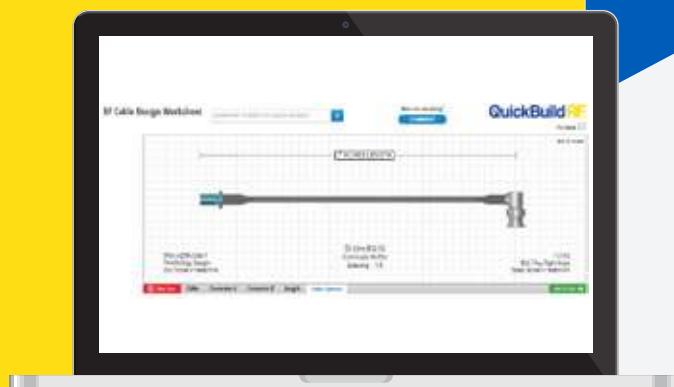

STEP 2 CONNECTOR TYPES

Select your RF interface from a wide variety of high quality Amphenol RF connectors. IP rated options available.

STEP 3 CUSTOMIZED OPTIONS

Select options to create a unique configuration including sleeving and clocking.

Now that you've designed your custom RF cable assembly, confirm your design and 'Add to Cart.'

From your cart, you'll be able to download a complete drawing package which includes:

- ▶ Cable assembly drawing
- ▶ Individual component drawings
- ▶ Cable specifications

And to instantly add additional lengths of the same cable assembly configuration.

When you're ready, proceed to the 'Checkout' or, 'Save As Quote' and come back later.
