

ENABLING AUTOMOTIVE TECHNOLOGY WITH HIGH FREQUENCY RF INTERCONNECT

The automotive industry has been revolutionized with more technology being designed into vehicles than ever before. This has resulted in a drastic increase in the number of devices that transmit and collect data. Along with traditional automotive solutions, this is driving a need for higher bandwidth requirements and higher density RF interconnect to support these expanding systems.

APPLICATIONS

- 360° Cameras
- ECU/Compute Modules
- Antennas
- Roadside V2X
- Radar
- LiDAR
- GPS
- Infotainment System
- Remote Entry/Start
- Tire Press Monitoring

OUR CORE COMPETENCIES

- Custom camera interconnect available
- Robust blindmate and highly reliable multi-port board-to-board configurations
- Waterproof IP67/68 sealed and ruggedized solutions
- Color coded and mechanically keyed automotive connectors
- Quick mating and quick disconnect RF connectors
- Customized hybrid solutions supporting RF, signal and power
- Custom cable assemblies and sub-systems

PRODUCTS

CONNECTORS

AUTOMATE® Type A & Type B Mini-FAKRA

- High frequency, high bandwidth design
- Low Engagement Forces
- Impact Resistant
- Ideal for compact spaces

FAKRA

- 14 different mechanical and color key codes
- Robust plastic housing with secure locking feature
- Tape and reel packaging
- Sealed options available

FIXED LENGTH CABLE ASSEMBLIES

AUTOMATE to AUTOMATE

AUTOMATE to FAKRA

AUTOMATE to SMA

FAKRA to FAKRA

FAKRA to AMC

FAKRA to AMC4

IP RATED WATERPROOF OPTIONS AVAILABLE

Waterproof sealed solutions are engineered to protect your application from outside elements and are fully tested to IP67 specifications in the mated and unmated condition.

AUTOMOTIVE APPLICATIONS

Series	Impedance	ECU/COMPUTE MODULES	ANTENNAS	CAMERAS	ROADSIDE V2X	RADAR	LIDAR	GPS	INFOTAINMENT SYSTEM	REMOTE ENTRY & START	TIRE PRESSURE MONITORING
AMC	50 Ohm	●	●	●	●	●	●	●	●	●	●

Note: IP67 options available. Contact factory for ordering information.

ALSO OFFERING

CAMERA INTERCONNECT

Sealed automotive camera interconnect are designed with overmolding of cable and connectors for a fully integrated, clean solution. Sealed interconnect prevent ingress of fluids and dust while high float solutions allow for blind mating of camera back.

SMART ANTENNA SOLUTIONS

RF interconnect that enable the consolidation of all radio functions into a single module create effective and efficient communication between automotive systems.

FLEXIBLE PRINTED CIRCUIT (FPC) ANTENNAS

These internal antennas are designed to be a compact, easy-to-use solution that enables Wi-Fi and Bluetooth applications.
