

## RF INTERCONNECT SOLUTIONS FOR

# LAST MILE DELIVERY

Drone technology is becoming more and more intelligent and our technology stands at the forefront, addressing the evolving needs of the last mile drone delivery market. As demands for efficient and intelligent solutions soar, our comprehensive product range offers robust, reliable options tailored to support drone delivery applications. From vision to GPS systems, Amphenol RF's interconnect solutions crafted by our global team of experienced engineers shape the future of drone delivery through innovation and excellence.

## APPLICATIONS

- Camera and Vision Systems
- Collision Avoidance
- GPS Navigation
- Remote Control
- Wireless Communication Systems

## CORE COMPETENCIES

- Waterproof IP67/68 sealed and ruggedized solutions
- Customized high-performance antennas
- Customized hybrid solutions supporting RF signal and power
- Custom camera interconnect solutions available
- Extreme weather resistant RF Interconnect
- High-frequency solutions

## PRODUCTS

2.92 MM

AUTOMATE®  
MINI-FAKRA

FAKRA

HD-BNC

HD-EFI

TNC &amp; RP-TNC

EXTERNAL IP67  
WI-FI ANTENNA

### FIXED LENGTH CABLE ASSEMBLIES

Pre-configured cable assemblies featuring common connector and cable configurations available in standard lengths.

### ADAPTERS

Designed for applications requiring two RF interfaces (between-series or in-series) to be connected together.

## IP-RATED WATERPROOF OPTIONS AVAILABLE

Waterproof sealed solutions are engineered to protect your application from outside elements and are fully tested to IP67 specifications in the mated and unmated condition.
