Overview

Amphenol RF offers a number of 50 ohm front mount bulkhead SMA jacks designed to accommodate ultraminiature micro-coax cable types. These SMA jacks are available in the straight crimp configuration and feature a threaded coupling mechanism for secure mating.

The front mount bulkhead SMA jack can be fastened inside of a panel or enclosure to provide additional security for sensitive systems. This is aided by a tamper resistant design and the flexibility of the micro-coax cables.

These connectors are part of a robust portfolio of ultraminiature SMA products suitable for applications such as drones, test and measurement equipment, industrial automation and inspection, and Bluetooth and cellular technology.
